Tahir is a dynamic and forward-thinking lawyer with a passion for cutting-edge legal challenges in the digital age. With a strong foundation in Intellectual Property Law, Copyright, and Contract Law, he has carved a niche for himself as a sought-after expert in technology and privacy law.

His journey into the realm of Artificial Intelligence regulations and law began as he recognised the immense potential and complexity of AI applications. Eager to be at the forefront of this transformative field, he delved into the intricacies of AI ethics, data protection, and the legal implications of AI-driven technologies.

Having honed his skills in various tech-related areas, he now offers a comprehensive legal support to tech companies and startups. Drawing on his expertise in contract law, he ensures that tech enterprises can navigate the legal landscape with confidence, fostering secure and successful business relationships.

With an unyielding dedication to safeguarding clients' interests and staying at the forefront of technological advancements, Tahir has become a trusted advisor to businesses seeking to navigate the evolving regulatory landscape. His sharp legal acumen, combined with a deep understanding of the digital ecosystem, makes him an invaluable asset in today's tech-driven world. As he continues his journey, his aim is to shape the legal framework that governs innovation and ensure that technology thrives in a responsible and ethical manner.

He has also successfully completed an approved Public Access course with the Bar Council and is now available to accept direct access instructions via Clerksroom Direct.

Tahir was nominated as a 'Finalist' in the 'Services to Law' category at the British Muslim Awards 2014 presented by The Islamic Bank of Britain. Tahir is ranked amongst the top 10 most Influential Muslims 2022 in the legal sector by EqualityX.
