Feedback:

"Tina was absolutely amazing! She is a lovely person but also a very knowledgeable and talented barrister. I was extremely happy with her service and with the way she handled the very aggressive counsel for the father, who I have been having to deal with in person over the last few years. Tina always had a smile on her face despite everything and was so reassuring, supportive and confident - she even gave me the help I needed to talk to Simon for the first time in several years. It was all pretty surreal and overwhelming, but I don't feel violated and destroyed like I normally do when I leave court. Honestly, she is just incredible! Her manner was a perfect fit for me and she just oozes professionalism while

being totally personable as well. It's hard to describe, but I've never met counsel like her. I hope she realises just how good she is. "
