### Feedback:

*"I will never be able to fully explain how much your help has meant to me, after so many years of absolute misery in connection with this case. I was always fascinated to watch a true professional in any activity fully focussed at work. In your case, I had never seen a court in action before and amid the anxiety, I had no idea what to expect, but the way you and the Judge interacted was utterly extraordinary, almost as if in a completely different language. Lay client, 21st November 2020."*
