Feedback:

"After full 3 days of hearings, the impression I had from Mr. Somerville's performance, is that... my case was his. The efforts he puts in the case and the dedications were out of this world. Kind of performance that make you feel 'WOW'... Mr. Somerville was calmly passionate and super skilled to take a step back and sees the case from far, which enabled him to spot holes and angles to support or defend whatever thrown at him... I would have never dreamed of a better way to put my case in front of a court. Based on my experience, I can confidently say this: If you hired Mr. Somerville, he will demolish and devastate your opponent."
