Feedback:

"I enrolled the services of Gareth for a Family Court Case (2020) and what a difference this man made. His understanding of what was important just by reading the case files prepared for him was excellent. His communication in final preparation was empathic and thorough to the point I believed I would succeed before attending court. His command of the courtroom was a joy to watch and the cross examination of all parties Gareth performed was again superb. Gareth was calm and full of honest application, keeping me informed of all possibilities throughout the day in court. I may be biased as I won the case but this was very much down to the knowledge of law and the

application of the law that Gareth brought to my case and it was most definitely money well spent. Very highly recommended!"
