Feedback:

"Chris's healthcare background meant that he immediately appreciated the organisational structure and context of my case...His focused approach meant that I was always clear on the next steps. He kept in touch throughout and was highly responsive, including out of working hours. Chris's performance during my hearing was exemplary and his carefully considered, precise and detailed submission provided clarity to the Panel and to the proceedings overall. The successful outcome was in no small part, due to his excellent approach to my case. It was an absolute pleasure to work with Chris."
