Mediation and Professional Feedback:

1975 Act Claim by Adult Child

David was brilliant and we would not have achieved the settlement that we did without his assistance.

Financial remedy and 1975 Act Claim

It was a really tricky matter with complex facts and a lot of different sets of lawyers and expectations to manage (let alone clients!). David kept everything moving forward positively and although it didn't settle, I don't think any of the parties particularly expected it to. I would definitely have David as a mediator again.

Possession of Estate property and an account to be taken

David was excellent in every way. Robust but genuinely sensitive and caring. Although I had already fully prepared my client for the unpredictable and often challenging experience of mediation, David's approach and very clear presentation of the process and his role underlined this exactly. As we had a difficult unrepresented litigation in person in this case, the outcome, which was satisfactory, was a particular relief to myself and my client and avoided further steps in what has already been an expensive and frustrating litigation journey. Many thanks.

Undue influence (presumed)

Excellent mediation. David Isbister encouraged the parties to focus on the main issues and to come to a workable solution, leaving their dignity in tact. Good use of time for all concerned.

1975 Act Claim with challenges to the validity of the Will

I thought that the mediator was excellent as did my client. This was particularly so in terms of communication skills as English is not the client's first language.

Challenge to the validity of a Will - Capacity, Undue Influence and Knowledge and Approval

David did an excellent job, I would book him again and recommend to others.

Challenge to the validity of a Will

Top class mediator. This was a very challenging mediation and certainly untypical. David's style fitted the occasion and the parties perfectly.

1975 Act Claim by Adult Child

My favourite mediator. David experience is very apparent. He is gentle and supportive and can also help identify issues or solutions that the parties may not necessarily considered.

1975 Act Claim by Spouse

David was excellent. I would have no hesitation in using him again and recommending him to my peers. Please convey my thanks to him and that of my client too - who was most appreciative of his efforts in what was a difficult day for him.

Propounding missing Will and Proprietary Estoppel

"David was fantastic from start to finish. Brilliant communications with the client and explained the process with ease. A very reasonable approach to resolving the issues between the parties. If you are looking for a mediator, I could not recommend David enough!"

Challenge to the validity of a Will - Capacity & Fraudulent Calumny

;From my initial contact with the clerks and throughout the process, my queries via email were always responded to promptly and helpfully. Having a conversation with Mr Isbister about the process, together with the guidance documents provided, reduced the stress in approaching the mediation. Mr Isbister carried out his role in a personal and professional manner. This mediation enabled the threat to be removed with honour and integrity and I would highly recommend this mediator and the process.' LiP

1975 Act Claim - Spouse

'I cannot speak highly enough on how David made me feel comfortable in what was a very upsetting and stressful situation. He gave me many opportunities to discuss my concerns / queries and I never felt that I was being rushed. His explanation on terms that covered areas such as tax were put forward with clarity and in a language that I would understand! Would not hesitate to recommend or use him again.' LiP

Probate Dispute (Capacity & Undue Influence)

'He is just one of the most experienced and naturally able mediators and it helps that he is particularly knowledgeable in the area of contentious probate disputes.' Claimant's Solicitor

Probate Dispute (Capacity) & 1975 Act Claim

'David was very good, particularly when some new information appeared at the mediation. This was a complicated case that was too small to justify the costs that should have been spent to get a result at trial. Between us (mediator and both sets of lawyers), we saved the parties from themselves. My impression is that each side was equally disappointed, which is almost the definition of a good settlement.' Claimant's Solicitor

'I have never been in a situation such as this before but I found David to be very professional and knowledgeable and he put me at ease in what could have been a very stressful experience. I would highly recommend him. Thank you David.' Defendant

David clearly explained the risks of taking the matter to court and encouraged the parties to settle on the day which they did. I would highly recommend David as a mediator and even my client commented on what a good job he did!" Claimant's solicitor

"My client and I cannot thank David enough for his assistance throughout the mediation. Achieving any sort of settlement in this dispute, which has been ongoing for 20+ years, seemed like the impossible dream. However, David worked his magic and an agreement was reached which will allow my client to move on from this and, hopefully, the administration of his father's estate to be finalised some 22 years on.
